

Elisa Corporation

Service Description

Elisa Mobiiliturva

1 October 2022

General

Elisa Mobiiliturva is a security service for mobile subscriptions. Elisa Mobiiliturva protects your phone on the internet and is always on and up-to-date. Service blocks entry to malicious webpages that are known to spread malware. Elisa Mobiiliturva can be used everywhere in the mobile network, in Finland and abroad. Service does not require any installations or a separate application to be installed to your phone.

Ordering the service

You can order Elisa Mobiiliturva from www.elisa.fi/mobiiliturva (webpage in Finnish only), at an Elisa store, or by contacting Elisa customer service on +358 10 190 240.

Setting up and using the service

Service activates immediately from ordering. Malicious webpages are detected automatically, and you will get a warning before entering a harmful webpage. You can bypass the block if required. You can also turn the service temporarily off in OmaElisa.

General

Elisa's general terms and conditions for consumer customers apply to this contract.
