

Optical Access Fibers

Product	Connection€	SMP monthly charge €	Other areas monthly charge €
Optical Access Fiber 1 FTTH	€139	€16	–
Optical Access Fiber 1 FTTB	€139	€95	€105
Optical Access Fiber 2 FTTB	€239	€190	€210

Availability inquiries

Price of availability inquiry response	€25/connection
--	----------------

Elisa will charge for answers to availability enquiries that have preceded the leasing of the connections, if the number of answers to availability enquiries during one month is more than double the number of connections said telecommunications company ordered from Elisa during the same time. The fee will only be charged for excess answers. The availability enquiry and its response are not binding on either party, and the connection will not be reserved for the enquiring party on the basis of these. The delivery of the connection requires that capacity is available on the date of order.

Change, cancellation and urgency charges for orders

Urgent delivery of an order	2 x product service charges
Cancellation or change of a confirmed order	50% of the original product's service charge (in addition to the service charges for the delivered products)
Identification of/changes to the connection information of a delivered connection	€20/connection

Cancellations of orders regarding already-delivered products will be handled as cancelled orders. In this case, the service charge plus one month's monthly charge will be invoiced for the products.

Interference measurements

Unnecessary repair visits	€185/ billed based on actual usage
---------------------------	------------------------------------

The notifying party which requires the repairs will be responsible for any costs arising from an unnecessary fault notification.

The price list is valid from September 23, 2026, in accordance with Traficom's definition for Market 1 in Elisa Oyj's SMP areas and nationwide in Elisa Oyj's Other areas. The prices are listed without Value Added Tax, and the taxes and any other authority fees valid at each time will be added to the final prices. Elisa's General Terms for Operator products will be applied to the agreement. Any deviating operating methods and conditions concerning delivery times, any sanctions and special services related to leasing are not included in the listed prices.

If the delivery of the service requires the ordering of a door opening service in order to access the property's shared spaces, the delivering operator has the right to charge an additional cost from the ordering operator. The prices quoted here do not include indoor network in properties
